Flood Control CIP Program**

Project: SA42

Broadway Drainage Improvements

Location / Limits: N. New Braunfels at Austin Hwy to San Antonio River tunnel inlet

SCOPE :

This Scope of Work will evaluate the potential flood control facilities (detention ponds) and perform a fatal flaw analysis at the following three locations:

1. Brackenridge Park across the river from the Witte Museum.
2. 300 Patterson Avenue.
3. The McNay Institute property next to N. New Braunfels Street at Austin Highway.

The benefits of constructing these ponds will be analyzed from a regional perspective. This project is one of several phases of a comprehensive plan to reduce flooding along the Broadway Corridor from US Highway 281 to the intersection of Austin Highway with N. New Braunfels Avenue.

Precinct:	2	OCL/ICL:	I.C.L.	C.D. 1, 2
Watershed:	Upper San Antonio River			
Creek Name:	San Antonio River / New Braunfels-Austin-Broad			
Project Type:	Flood Control			

Consultant:	HNTB Corporation
Consultant Awarded:	1 / 5 / 2010
Contractor:	TBD
