Flood Control CIP Program**

**Project: LC15**

**Huebner Creek RSWF at Prue Road**

**Location / Limits: Huebner Creek at Prue Rd**

**SCOPE :**

The main purpose of this project is to alleviate flooding downstream of Prue Road. Provide a 61 ac-ft Regional Storm Water Detention Facility to reduce flow rate by approximately 10%. Prue Road crossing has been constructed as an all-weather crossing at Huebner Creek. Project requires obtaining regulatory permits such as United States Army Corps of Engineers permits, local floodplain permit, and a potential dam permit.
