Flood Control CIP Program**

Project: SC15

Rosillo Creek NWWC

Location / Limits: Between FM78 and Ackerman Road

SCOPE :

The purpose of this project is to alleviate flooding in a tributary to Rosillo Creek downstream of FM 78 in the City of Kirby during a 1% chance rainfall event. The project includes channel improvements and the construction of multiple bridge structures and large culvert crossings that will provide unfloded access across the channel between FM 78 and Ackerman Road.
