Project: SA43

Sixmile Creek Drainage Improvements

Location / Limits: Roosevelt Ave. to Hutchins Place

SCOPE :

This project includes the analysis of Sixmile Creek starting downstream of Roosevelt Avenue upstream to IH-35. The project will entail the construction of one or more Regional Storm Water Facilities and/or channel and bridge improvements between Hutchins Place and Roosevelt Avenue to reduce the structural flooding along Six Mile Creek. The intent of the project is to reduce the DFIRM Floodplain in the residential areas and provide for unflooded access across South Flores during the 100 year ultimate development storm event.

Precinct:	1	OCL/ICL:	I.C.L.	C.D. 3
